LEAD CONSULTANCY

MARCHINI CURRAN | ASSOCIATES

Marchini Curran Associates has been working on Data Centre design since 2006, our experience in the sector has covered a number of different areas undertaking architectural, planning, coordination and lead consultant roles.

# DATA CENTRE EXPERTISE

**Marchini Curran Associates has recently completed two major data centres including; The Campus Hemel Hempstead for NTT / Gyron.**

Acting as lead consultant on many projects MCA has the ability to draw together the entire team on behalf of our clients in addition undertaking the contract administration overseeing the construction. The ability to offer architectural and administration services in addition to assembling the wider design team has proved beneficial to our current client base.

Marchini Curran Associates have led design teams building Data Centres that were assessed and certified for BREEAM, Secured by Design, CPNi, LPCB, BSI PAS68 and Uptime Institute Tier 4. Our experienced architectural team understands our client's processes and industry requirements. MCA is an award-winning, RIBA chartered practice of highly committed architects and designers providing innovative architectural design solutions. Based in Nottingham, MCA works with local, national and international clients.

# COMPANY PROFILE

**Since being established in 2002, Marchini Curran Associates has successfully delivered an enviable portfolio of diverse projects across a wide range of development sectors, and in doing so has built a solid reputation for harnessing reliability and practicality with creativity and flair.**

Marchini Curran Associates has been involved in projects ranging in value from a few thousand pounds to many hundreds of millions of pounds. Sector coverage includes hotel and hospitality, commercial, retail, leisure, residential, education, industrial, interiors, masterplanning and branding.

Marchini Curran Associates designs are based on achieving a successful balance between a commitment to the new and respect for the past, whilst reflecting informed views on technology, sustainability and the environment.

MCa places prime importance on developing close collaborative relationships with clients and other parties to the development process, as a means of achieving, every time, effective delivery of an excellent product.

MCa is an RIBA Chartered Practice with UKAS ISO 9001, 14001 and 45001 certification.
